Sir:

In response to the Communication from the Examiner and Notice to Comply dated October 9, 1997 and in accordance with 37 CFR §1.821 through §1.825, Applicants are submitting herewith another Sequence Listing for the above-identified application both in paper copy form and in computer readable form. The name of the file on the computer readable form is MOSSEL.SEQ. The paper copy and the computer readable form are the same.

The new sequence listing and CRF corrects the errors noted in the raw sequence listing, specifically changing the "I" to "N" and describing under the feature heading that "N" means "I" (inosine). The note in the sequence verification report concerning the length of SEQ ID NOs: 7 and 8 is not understood, as 29 bases are present.

In addition, please amend the application as follows:

IN THE SPECIFICATION:

Please delete pages 29 - 50 in their entireties and insert therefor the attached Sequence Listing as pages 29 - 51.

Please renumber pages 51 - 54 as pages 52 - 55, respectively.

In the event any other fees are required with this paper, please charge our Deposit Account No. 02-2334.

Respectfully submitted,
